

*“Because it all starts
with an idea...”*

Initiative Portfolio Management Platform

Web-based application to track and value your innovation,
business transformation and continuous improvement efforts

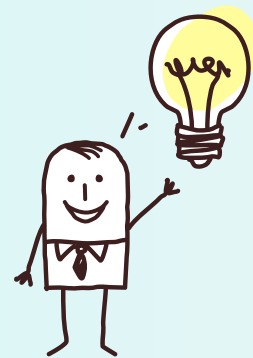

www.humanperf.com

Because all business transformation starts with ideas that require actions to get results...

You have to ensure that you can capture all those ideas, and then prioritize, execute and monitor all the actions

Because more than 90% of your initiatives end up in numerous spreadsheets...

We have designed a digital and collaborative platform: IDhall

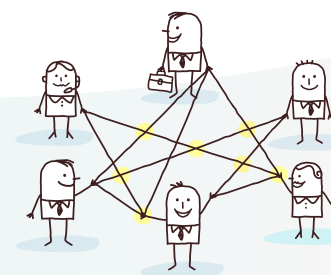

Capture, centralize and organize all business opportunities (bottom-up, top-down...)

Analyze, prioritize and transform the best ideas into planned initiatives

Bring back enthusiasm & trust for innovation and continuous improvement by enhanced collaboration across hierarchies, functions, and geographies

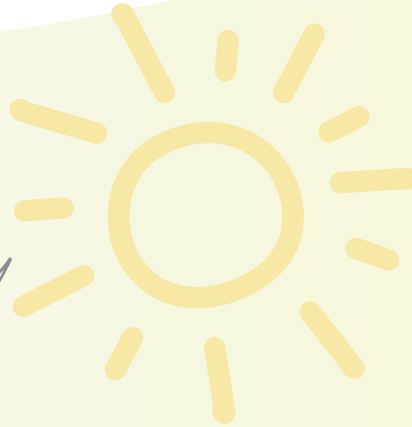

Empower your teams to execute actions collaboratively

Monitor progress and track value in real-time

Keep your vision and objectives on track with steering tools and statistics

BEFORE

- All initiatives are scattered in files in all formats all over the network
- Actions are assigned without consideration of resource availability or achievability
- Regular monitoring of operational execution is simply impossible
- Consolidating progress and business impact is tedious and time consuming

AFTER

Your single source of truth for your initiatives

IDhall will help you to unlock your **performance potential** and ensure that all parties involved can **work together efficiently**

IDhall, the leading Initiative Portfolio Management Platform

- **Simple and powerful SaaS Software**
(up and running in a couple of days)
- **Hosted services** (private cloud) or on-premises
- Available **on all your devices**
- Scalable from **10 to 100K users**

More than half a million users worldwide

We love working with companies where people and continuous improvement are key drivers.
Why don't you try IDhall? There is no commitment!
